Applied Animal Nutrition The Use Of Feedstuffs In The Formulation Of Livestock Rations

[Applied Animal Nutrition The Use](#)

Applied Animal Nutrition The Use

The purpose of this book is to bridge the gap between the theory of animal nutrition and the practice of livestock feeding. The subject matter is divided into four main sections, plus appendices. Section I deals with the terms and expressions used in describing feeding-stuffs. Section II is concerned with the nutritional requirements of animals, with special attention to the biological basis ...

The breadth and quality of original research articles, review articles and pilot studies describing large-scale trials make the journal invaluable to practitioners, consultants and ...

Journal of Applied Animal Nutrition - Wageningen Academic

Phytase is applied in animal feed based on its standard activity measured at pH 5.5, however the relative activity at pH 3 (e.g. stomach pH, the main site for the breakdown of phytate) varies among the commercial phytases, ranging from 56% (an E coli phytase) to 235% (Buttiauxella phytase). These diverse sources of phytases have varying capability for degrading phytate and, correspondingly, different P, digestible amino acid and metabolisable energy matrix values. In addition, the matrix ...
