Blockchain Revolution: How the Technology Behind Bitcoin ...

'Blockchain Revolution is a highly readable introduction to a bamboozling but increasingly important field' - Guardian. Blockchain is the ingeniously simple technology that powers Bitcoin. But it is much more than that, too. It is a public ledger to which everyone has access, but which no single person controls. It allows for companies and individuals to collaborate with an unprecedented ...

Blockchain Revolution: How the Technology Behind Bitcoin ...

Blockchain is an ever-growing list of records run on a network. Its system architecture is no different from a database. The records are called blocks cryptographically linked to one another forming a chain. The credibility of the chain is maintained in that the mathematical hash of the last block will be found in the subsequent block.
