On the back there was a sticker UPC label which says Concept Development, but the actual book title is Problem-Solving Exercises in Physics. These are two different books. The Concept Development book has simple exercises with lots of Hewitt drawings that go step by step through some of the more complex concepts. The Problem-Solving Exercises are more challenging problems too supplement the problems at the end of each chapter.

Comparing the concepts of mass and weight, one is basic—fundamental— depending only on the internal makeup of an object and the number and kind of atoms that compose it. The concept that is fundamental is (mass) (weight). The concept that additionally depends on location in a gravitational field is (mass) (weight).
