Aspen HYSYS Dynamics can be used to view the response of compressors to conditions that vary from steady-state. Proper dynamic modeling of compressors can help prevent catastrophic equipment occurrences, such as compressor surge or flow reversal, to ensure process safety. Perform Dynamic Studies for Columns. Columns are an essential part of most processes. Columns can have many variables that ...

The document Chemical Process Simulation and the Aspen HYSYS v8.3 Software is a self-paced instructional manual that aids students in learning how to use a chemical process simulator and how a process simulator models material balances, phase equilibria, and energy balances for chemical process units. The student learning is driven by the development of the material and energy requirements for a specific chemical process flowsheet. This semester-long, problem-based learning activity is ...
