Bill M. Williams (1932 - 2019) is an American trader and author of books on trading psychology, technical analysis and chaos theory in trading the stock, commodity, and foreign exchange (Forex) markets. His study of stock market data led him to develop a number of technical analyses that identify trends in the financial markets.

### **Bill Williams (trader) - Wikipedia**

For example, if a stock is trending higher, buy only when the indicator falls below the 100 line and then rallies back above it. If a stock is trending lower, do a short sale—selling borrowed shares of a stock with the intention of buying them back and returning them later at a lower price—only when it drops back below the line.
