fournir).

VDA 6.3 : 2016 - Qualification d'auditeur de processus ...

The VDA 6.3 process audit is an effective procedure for assessing processes in connection with planning and manufacturing of a product. These audits are usually conducted within the organisation or with suppliers prior to series release, but also form a valuable contribution for process optimisation with already existing manufacturing lines. Furthermore, potential analysis - as part of VDA 6 ...

VDA 6.3 - Qualification for Process Auditor (315/20-02)

VDA 6.3 covers the process audit over the entire product lifecycle. Each process is analyzed through a series of questions that determines how each process has been implemented during the development phase and how it's managed in the industrial phase. Each question carries equal weight, thus offering the most reliable results at the final score assessment. If you achieve a positive score for ...
